

Start evaluating your CO2 sensor in under 2 minutes

Make informed decisions about your development project with a sensor evaluation kit. Get real-time readings in less than 2 minutes, and evaluate compatibility with your product or application.

Data capture makes analysis quick and easy – just plug and play for instant evaluation.

What's in the box?

Your chosen CO2 sensor from our CozIR®, ExplorIR® and SprintIR® ranges

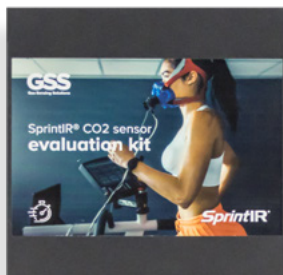

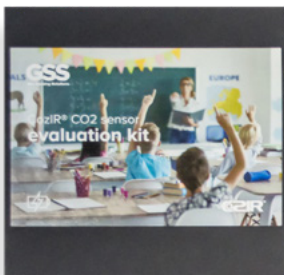

Adapter board
(if applicable for your sensor)

USB cable
